

Insulation & Weatherization

Insulation

Homes with electric heat (with or without central air conditioning):

- 40% of materials cost up to \$600 max./year

Homes with non-electric heat and central air conditioning:

- 20% of materials cost up to \$300 max./year

Homes with non-electric heat and no central air conditioning:

- No incentive available

Must increase ceiling to R38, wall to R19 or foundation to R10; radiant barriers not eligible.

Weatherization and Duct Insulation

Homes with electric heat (with or without central air conditioning):

- 40% of materials cost up to \$200 max./year

Homes with non-electric heat and central air conditioning:

- 20% of materials cost up to \$100 max./year

Homes with non-electric heat and no central air conditioning:

- No incentive available

Existing homes (not new homes) only; material costs only (no labor). May be installed by Prairie Energy Cooperative member or a professional. Subject to inspection by Prairie Energy. Maximum rebate applies to all insulation/weatherization upgrades per residential/farm building per year.

Weatherization includes weatherstripping, infiltration control, outlet covers and window wrapping. Minimum of \$25 purchase required to receive incentive.

Ducts must be in non-conditioned spaces only.

Water Heating

High-Efficiency Storage Water Heaters

Minimum .90 Energy Factor rating; electric resistance storage tank-type water heaters only (no tankless water heaters).

50-79 gallon • \$250/unit

80+ gallon • \$400/unit

Heat Pump Water Heater • \$300/unit

Add-on or integrated unit; must be connected to electric water heater.

Energy Audit

An energy advisor from Prairie Energy Cooperative can help you save money by conducting an energy audit of your home. You will receive an audit report, recommendations and several leave-behind items that can help save on energy costs.

Bill credits will be issued to member's account for rebates of \$50 or less. Checks will be issued for rebates over \$50. Rebates need to be submitted within six months of purchase or completion of project.

Electric Vehicles

Electric Vehicle Level 2 charger • 50% of the charger price up to \$500

- Member must submit charger make, model, serial number, specifications, charger receipt and vehicle make and model, VIN and license number
- Member must sign a load management agreement
- Chargers must be 240-volt hardwired per local codes (3 charger maximum per household)
- Charger installation is subject to verification by Prairie Energy Cooperative

Lighting

ENERGY STAR LED Bulbs • \$2/bulb

No more than 50% of cost. Retrofit only.

LED Security Lights - no more than 50% of cost, up to

10-39 watts • \$10/fixture

40+ watts • \$30/fixture

Lighting Fixtures • \$6/fixture

No more than 50% of cost. Retrofit only.

LED Holiday Lights • \$2/string

Annual November-December promotion; Maximum 5 strings per member. No more than 50% of cost.

Heating & Cooling

Geothermal Heat Pump • \$300/ton

• \$50/unit bonus if installed with desuperheater

Must be ENERGY STAR® rated or a minimum of EER 14 and COP 3.3; 20-ton maximum per structure without prior approval.

Geo HP replacing Geo HP • \$150/ton

Air Source Heat Pump

Two units maximum per single-family dwelling or outbuilding. One rebate maximum per family in multi-family dwelling.

< SEER 15 • \$50/ton

≥ SEER 15 • \$200/ton

With gas backup and load control agreement

< SEER 15 • \$150/ton

≥ SEER 15 • \$300/ton

Mini-Split/Hotel-Type Ductless Heat Pumps

Two units maximum per single-family dwelling or outbuilding. One rebate maximum per family in multi-family dwelling.

≥ SEER 15 • \$200/ton

High-Efficiency Central Air Conditioning

Two units maximum per single-family dwelling or outbuilding. One rebate maximum per family in multi-family dwelling.

≥ SEER 15 • \$50/unit

≥ SEER 16 • \$100/unit

Heat Recovery Ventilators • \$125/unit

New or existing home.

Air Source or Geothermal Heat Pump

Compressor Replacement • \$50/ton

Controllable Resistance Heat • \$20/kW

- Central or zoned
- Permanently installed
- Agreement for future load management
- Minimum: 10 kW or whole-house
- Heat pump back up not eligible

Touchstone Energy Home

If you build a new home or extensively remodel your current home to high energy-efficiency standards, you may be eligible for an additional Touchstone Energy Home incentive.

Option 1 • Standards Checklist

\$500 rebate when your home passes prescriptive construction checklist. Completed checklist must be signed by home owner and home builder/contractor.

Option 2 • Home Energy Rating Score (HERS)

\$1,000 rebate for HERS score of 53 or lower as rated by an REC-approved home energy rater. REC member pays for rating.

Only single-family, all-electric* homes are eligible.

* Some exceptions may apply. Ask REC for details.

Appliances

ENERGY STAR Clothes Dryer • \$50

ENERGY STAR Clothes Washer • \$50

ENERGY STAR Dishwasher • \$25

ENERGY STAR Freezer • \$25

ENERGY STAR Refrigerator • \$25

Unit must be new, ENERGY STAR rated and installed at member's location. Subject to inspection by REC.
